

FOR IMMEDIATE RELEASE

**NEW ULTRA-LOW POWER, HIGH SHOCK, FAST START-UP
32.768 KHZ OSCILLATOR FOR HARSH ENVIRONMENTS**

ORANGE, Ca., May 3, 2018 – CXOLHG is a 32.768kHz quartz crystal oscillator in 3.2 x 1.5mm hermetically sealed, highly reliable ceramic housing. This oscillator is well suited for demanding application requiring Ultra low-power, high-shock, fast startup and low-aging with operating temperature range of -55°C to +125°C.

Please access the CXLOHG datasheet [here](#).
