

FOR IMMEDIATE RELEASE

NEW STXO OFFERS TIGHT STABILITY, LOW POWER & COMPACT SIZE

ORANGE, Ca., October 19, 2017 – Statek Corporation has announced the availability of the STXO Tight Frequency Stability Clock Oscillator product family.

The STXOHG is a stable, compact, low power reference source that can fill the stability gap between a conventional clock oscillator and a TCXO reference source. The 2.5mm x 2.0mm STXO is available over a wide frequency range with stabilities down to ± 5 ppm and temperature ranges up to full MIL. In addition, the STXOHG offers full Military Screening – and its 75,000g shock capability makes it an ideal choice for mission critical Military or Industrial applications.

Statek is a leader in the design, development and manufacture of highly reliable, ultra-miniature, quartz-based frequency control products for the Medical Electronics, Aerospace & Defense and Industrial markets.

For additional information and to discuss your specific operating requirements, contact Statek at 714-639-7810 or e-mail us at sales@statek.com. For information about our full line of high performance frequency control products, visit www.statek.com.
