

REACH COMPLIANCE STATEMENT

Background	Statek Corporation is fully aware of the requirements of REACH , the EU regulation regarding the R egistration, E valuation, A uthorization and Restriction of C hemicals and the dates by which various activities must be implemented. It is our intention to fully comply with all legal requirements, while affording a smooth transition to compliance with a minimum disruption to our customers and relevant stakeholders.
Registration, Notification & Communication	<p>Statek is classified as a Non-EU Article Producer/Supplier under the REACH definitions.</p> <p>Article 7.1 states that registration of substances in articles is required for an article producer only if the following conditions are met:</p> <ul style="list-style-type: none">• The substances are intended to be released from the produced or imported article(s) during normal and reasonably foreseeable conditions of use.• The total amount of the substance present in the articles with intended releases produced and/or imported by that actor exceeds one ton per year per producer or importer. <p>Article 7.2 states that notification of substances in articles is required when all of the following conditions are met:</p> <ul style="list-style-type: none">• The substance is included in the candidate list for authorization and• The substance is present in all articles produced by one actor in an amount totaling over one ton per year (per producer or importer).• The substance is present in articles over a concentration of 0.1% by weight (w/w). <p>Article 33 states that producers, importers and other suppliers of articles containing Substances of Very High Concern (SVHC) included on the candidate list for authorization in a concentration above 0.1% (w/w) have to provide respective information available to them to the recipients of the articles and as a minimum, the name of the substance.</p>
Statement	All Statek products are REACH compliant as per the SVHC candidate list published as of June 2022, with the exception of products with SM2 and SM3 terminations. Statek products with SM2 and SM3 terminations contain Lead in excess of 0.1% (w/w). The total amount of Lead present in the articles does not exceed one ton per year.
For Further Information	Information necessary to ensure safe use of an article produced by Statek can be provided upon request. For further information or if you have any other questions, please contact Statek Corporation at (714) 639-7810 or send an email to sales@statek.com
