

**FOR IMMEDIATE RELEASE**

**MINIATURE, TIGHT FREQUENCY STABILITY OSCILLATOR  
FOR HARSH ENVIRONMENT APPLICATIONS,  
OPERATING OVER -55°C TO 125°C TEMPERATURE RANGE**

ORANGE, Ca., February 27, 2023 – Statek Corporation is pleased to announce the release of the MTXO oscillator series.

The MTXO oscillator is based on cutting-edge technology and houses a quartz crystal resonator in a 3.2 x 2.5 mm ceramic package with advanced circuitry to deliver exceptional frequency stability of  $\pm 5$  ppm over -55 °C to +125 °C. The MTXO is a low-power, high shock oscillator with low sensitivity to acceleration.

Please see the MTXO data sheet [HERE](#) for further information.
