

**FOR IMMEDIATE RELEASE**

**HIGH FREQUENCY CRYSTAL FOR  
HIGH RELIABILITY APPLICATIONS FEATURES  
LOW AGING AND HIGH SHOCK & VIBRATION SURVIVAL**

ORANGE, Ca., August 2, 2023 – Statek Corporation announces the high shock version of the CX20 series crystal to survive up to 75,000 g. With a footprint of 2.5 mm x 1.2 mm CX20 is available from 16 MHz to 100 MHz. It becomes Statek’s smallest high shock AT-cut crystal available for mission critical applications.

Please see the CX20 data sheet [HERE](#) for further information.
